

## ***JP Enterprises' Rocky Mountain 3-Gun World Championship***

Rocky Mountain 3-Gun is an action shooting match set in the Natural Terrain of the NRA Whittington Center just south of Raton , New Mexico. The riverbeds, mountains, trees and rocks provide the props for our stages.

Go to: <http://nrawc.org/> for directions and other information such as housing at the Whittington Center.

RM3Gun is a very physical match. Whittington is at over 6000 feet as well, so it adds some extra difficulty for shooters coming from sea level. The match has a healthy amount of long range rifle. You can expect 400 yard rifle targets every year. We try to strike a balance between rifle, shotgun and pistol, but you will definitely have lots of rifle because it's one of the only places you can shoot as far in such a beautiful environment. Usually, we have some moving/aerial targets for the shotgun as moving targets are what the gun is designed for.

We use time-plus/neutralize scoring with 100 points per stage. We have five divisions: Open, Limited Scope, Limited Iron, He-Man Scope and He-Man Iron. Please check out our rules for further information.

You can expect challenging stages in beautiful areas that take you out of your comfort zone, but still allow you to succeed and have fun!

Check [out our video](#) from 2008.

More information is located at: <http://rm3gworld.webs.com/>

For 2015, we plan 9 natural terrain stages and a team shoot. Shooters will shoot 3 stages a day August 13-15, 2015. On August 16, we will have shoot-offs and team shoots at the Coors Event Center, followed by the prize table.
